## COMPANY PROFILE

Anhui Topplo Automotive Technology Co.,Ltd is a national new high-tech enterprise focusing on R&D, design, manufacturing and sales of aluminum alloy wheel. The company has the whole-process capacity integrated with conceptual design, development, manufacturing, sales ,and service of products. It also has the rich experience of conducting professional development and manufacturing according to the customer's sample or drawing.

The company was founded in 2011.In 2019, in order to expand its business scope,the company introduced strategic investors and changed into the present name.The comprehensive capabilities of Topplo has been further enhanced, and the business scope will be further expanded to other aluminum automotive parts.

The area of the factory is 91 acres. With a total investment of 200million USD, the factory has an annual output capacity of 3 million aluminum-alloy wheels and other aluminum castings as well.There are about 500 professional staffs in the company, and above 30% of them are engineers or technicians.The core members of Topplo have more than 10 years of industry experiences.

Topplo owns multiple sets of advanced equipment.In order to ensure efficiency and social responsibility, the process of production within Topplo is strictly operated according to the standard IATF16949 and ISO 14001. Topplo has already passed TÜV(Germany) certification,VIA (Japan) quality system certification,and SAE/DOT (USA) quality system certification.The company has accumulated nearly 40 invention patents in recent years.

Through last several years of exploitation,Topplo wheels have been exported to Europe, America, Asia Pacific, Middle East and other overseas markets.The company has established a good strategic partnership with many domestic and foreign customers. What's more, Topplo is offering OEM service to many famous automobiles manufacturers.With high-quality products, delivery in time and good service, Topplo has been one of the most influential and modern manufacturing enterprises in the Chinese aluminum alloy wheel industry.
